REED HAS FAITH

Most Interesting Talk Before Men's League Meeting

An abiding faith in the people was olded before the Civic Section of he Men's League Inst evening. Hon. Milton Reed, at one time Mayor of Fall River, Mass., gave a

epy interesting talk before the Civic ection of the Men's League of Cenral Union Church. The attendance as not what it should have been. or one of the most instructive talks hat has been heard in Honolulu for ne time was delivered.

The gist of Mr. Reed's talk was his onclusion that full confidence may placed in the intelligence, good ese, and patriotism of the people

He declared that there was no mean for bad government except inifference. He related how he had old business leaders of Fall River hat they could have as perfect govnment as it is possible to secure if hey would give to the science of govrument one-tenth the time they deney-getting. In a general way be proved the centralization of reonsibility in a few officers and few vays with the provise that the peoore important measures through he application of the referendum.

Mr. Reed opened his remarks by he read the morning paper in Honoulu that he was a relative of the faus Thomas B. Reed. He knew Reed but the relationship was so attenuated and distant that neither

His remarks were devoted to a relew of the general moral uplift that passing over the land and of chich President Roosevelt, has been the leader and mouthpless. Referring to the election of McKinley, for whom he voted, Mr. Reed said that his elec-tion was secured through the naturalized rate of the country, the vote of the cities. The farmers were supcorters of Bryan. He made the same conment on the election of Mr. Taft. he naturalized vote of the cities

The drift of young men from the country to the cities was noted. Country life is not attractive and the government of the cities is therefore the very vortex of the problems of In speaking of the methods of gov-

This had many radical features of centralization but with the great awakening of the people new going on the faults will be discovered and corrected. The direct primary, for instance, has not always accomplished all that was lapsed. Its crors are being corrected and the whole course of events is to bring the te to their private business of people in closer touch with their government, and eliminate the bosses.

Mr. Reed talked for nearly an your and his hearers would have been pleased to have him continue for another. He will speak in Central Union Church pulpit some evening it the near future, and it was remarked by those present last evening that a talk along the same lines would be most interesting, valuable, oting that he did not know until and instructive for the people of Ho nolulu.
